All products supplied by QUARE DESIGN S.L. meet the requirements of a bathroom. Their surface makes them resistant to humidity, aseptic, easy to clean and maintain.

For daily cleaning it is advisable to use neutral soap or all-purpose cleaner with the help of a soft sponge or cloth. Do not use: scouring pads such as “Scotch Brite”; solvents, acidic, alkaline or abrasive products. After use or cleaning, rinse with plenty of water; in areas with limestone water, it is recommended to clean the product with an anti-limescale product or vinegar.
